

The Titan Objective

Titan Management Group is the industry leading Operational Compliance and Information Management Services Organization.

With a dynamic approach to operational compliance management, Titan responds to operational compliance challenges with value-added solutions. We help clients focus on their core business by providing multiple levels of service for regulatory compliance management.

Titan's goal is to optimize the efficiency of your UST and regulatory programs. Our EDGE Technology (internet database) is the foundation of our business, but our people make the difference.

Titan clients can rely upon our experienced and highly trained professionals to provide superior services and support.

Titan is committed to being 'the best off-site employee petroleum marketers could ask for.'

Titan has assembled a dynamic team of regulatory compliance and information technology experts with proven track records in providing services to leading companies. Titan's Compliance Management Program is a comprehensive and professional UST Regulatory Compliance & Information Management Service developed by experienced professionals in the Petroleum Industry. It is a complete and reliable, high-quality, client-centered solution that allows you to focus on your own core business, while sustaining a competitive advantage. Titan provides the personnel, technology and expert oversight in order to enhance the entire Compliance Management function.

Components of Titan's Compliance Management

Titan Management has developed a Compliance Management Program through experience and the help of Industry Professionals. Titan's Compliance Management program is completely customizable to your needs.

- ▣ Custom and collaborative program development
- ▣ System information management
- ▣ Record keeping and data archiving
- ▣ Registration/ Notification/ Other Filings
- ▣ Maintenance tracking systems
- ▣ Release Detection monitoring
- ▣ Corrosion Protection monitoring
- ▣ Regulatory interface and reporting
- ▣ Issue management and resolution
- ▣ Contractor management and Value-Added Service Network

The EDGE Advantage

The Electronic Data Gathering Exchange (EDGE) is the Industry Leading On-line Compliance Management Information System.....A virtual data warehouse of information and central access point to integral information. Created by Titan specifically for the petroleum industry, The EDGE is the most effective way to manage and access UST Fuel System's and C-Store Information. The EDGE offers its users a comprehensive management tool which allows for data to be accessed anytime and anywhere internet access is available.

Immediate access Anytime, Anywhere to:

- ▣ Current / historical testing dates
- ▣ Release detection monitoring data
- ▣ Alarm monitoring and notification
- ▣ Live Dispatch reporting and Tracking
- ▣ Lease Tracking and Renewal Reminders
- ▣ Maintenance Work Order Tracking
- ▣ Asset Management and Tracking
- ▣ Corrosion Protection Monitoring data
- ▣ Digital imaging and archiving
- ▣ Competitor Pricing Modules
- ▣ Dynamic Reminders
- ▣ Automatic Population of state approved and required forms
- ▣ Comprehensive reporting features

Dispatch

Schedule, monitor, and track your fuel shipments from dispatch to delivery. Get up to date information on the amount of fuel that is being dropped into your tanks through a P.O. tracking system. New driver availability module allows you to match up loads with personnel. DOT Compliance is also available.

Competitive Pricing

Know what your neighbors are charging for fuel. Stores can tell you what your competitors are charging so that you do not have to take the time to call or drive by. Instead, print off a report wherever you are to see what pricing changes you may wish to make.

Competitive Pricing
