

Fuel Management Solutions

Titan's Fuel Management Solution allows UST owner/operations and fuel managers the real-time information they need to proactively manage inventory, reduce fuel-related risks, and maximize fleet efficiency. Using Titan technology, you'll have the visibility you need to make important daily decisions—from up-to-the-moment inventory levels to hourly projections to seasonal histories. Additionally, Titan's Web-enabled solution arms you with the ability to optimize purchasing, load building, and dispatch. So you'll be able to cut costs and streamline operations from end to end. No fuel manager should operate without it.

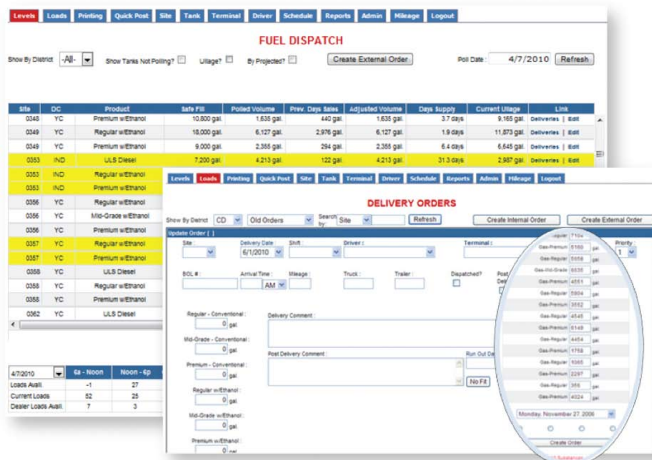

BENEFITS

- Inventory Visibility and Control
- Protection Against Costly Leaks and Spills
- Optimized Fuel Dispatch
- Improved Efficiency
- Reduced Downtimes
- On Demand Access

Tank ID	Date	Time	Category	Description	Alarm Type
D.B	6/2/2010	10:06 PM	OTHER	VEEDER ROOT (FMS)	ALARM CLEAR WARNING
	6/2/2010	10:13 AM	OTHER	VEEDER ROOT (FMS)	AUTODIAL FAILURE
	6/2/2010	10:35 PM	OTHER	X	ALARM CLEAR WARNING
	6/2/2010	10:35 PM	OTHER		ALARM CLEAR WARNING
	6/2/2010	1:30 PM	TANK	REGULAR UNLEADED	DELIVERY NEEDED

Know immediately when your ATGs are in alarm and receive instant notification via email. The system also allows you to track fuel levels with immediate access to live polling data.

Site	OC	Product	Infl File	Polled Volume	Prev. Days Sales	Adjusted Volume	Days Supply	Current Usage	Limit
0240	YC	Premium w/Ethanol	10.000 gal.	4.635 gal.	440 gal.	4.635 gal.	3.7 days	9.165 gal.	Deliveries: 1,688
0249	YC	Regular w/Ethanol	18.000 gal.	6.127 gal.	2,976 gal.	6.127 gal.	1.9 days	11,873 gal.	Deliveries: 1,688
0249	YC	Premium w/Ethanol	9.000 gal.	2.355 gal.	294 gal.	2.355 gal.	6.4 days	6.645 gal.	Deliveries: 1,688
0243	IND	ULS Diesel	7.200 gal.	4.213 gal.	122 gal.	4.213 gal.	21.3 days	2.887 gal.	Deliveries: 1,688

View real-time levels of all the tanks in your enterprise, including polled volume, historic use, day's supply, and 5 day projections. The application gives you the ability to forecast demand and trigger dispatch with the click of a mouse.

"My return on investment is strong. Just in the fact that with Titan I've streamlined operations and only have one person managing fuel dispatch. That's huge!"

Bill Kimbro • Owner, Tri Star Energy

KEY FEATURES & FUNCTIONS

ATG POLLING & INVENTORY CONTROL

- Allows managers on-demand access to live polling data
- Centrally stores all ATG data and polling histories
- Eliminates haul backs and helps optimize margins

ALARM MONITORING AND NOTIFICATION

- Tracks tank levels at every site and monitors for alarms
- Instantly notifies managers when tanks are in alarm via email
- Allows ATG alarms to be resolved remotely reducing service costs and environmental risks

FUEL DISPATCH

- Enables BOL tracking of fuel shipments from dispatch to delivery
- Provides up-to-date information on the amount of fuel being dropped
- Optimizes load building and reduces unplanned split loads
- Eliminates costly downtimes due to poor resource planning

FLEET MANAGEMENT

- View and schedule available drivers with the click of a mouse
- Reduces the cost related to scheduling and managing fleets
- Includes DOT compliance tracking for drivers

COMPETITOR PRICE TRACKING

- Managers can input competitive fuel pricing data for tracking
- Centrally view competitive pricing information by location or region

ADVANCED FORECASTING AND REPORTING

- Trending reports show tank levels and allow for demand forecasting
- Sort and report on tanks by inventory and refueling needs
